1997

a shared
history
too

30 years of partnership

ISPA Belgium founded in 1997, with support from Belnet & BNIX

Belgian Internet Sector: ISPs, hosting, cloud & content providers

Together shaping Belgium's internet backbone

Evolution 1 – Local anchoring in a global world

Strong **local** infrastructure is essential for performance

Peering via BNIX strengthens Belgian digital economy

Reduces **dependency** on foreign hubs

Invest in local peering as a strategic choice

Evolution 2 - Skilling & talent as the key to internet for all

- Fast & reliable internet is a basic **necessity**

- Digital **progress** requires digital skills

- Attracting and training **talent** remains critical

Invest in people, not only in technology

Evolution 3 - Security in a complex geopolitical climate

- **Cyberthreats** are becoming more sophisticated
- Reliable partners & **neutral** platforms are essential
- BNIX ensures **secure** and transparent traffic exchange

Collaborate through platforms like BNIX to
strengthen Belgium's digital backbone

Building our future

Tomorrow's internet:
faster & smarter

The core remains:
collaboration & trust

Community partners in
an open, performant and
inclusive internet
